

## Bibliography of Pertinent Papers

1. Lin, F.J., Besserer, G.J., and Pitts, M.J., "Laboratory Evaluation of Crosslinked Polymer and Alkaline-Polymer-Surfactant Flood," Can J. Pet Tech., Vol 26, pages 54-65, nov-dec 1987.
2. Clark, S.R., Pitts, M.J., and Smith, S.M., "Design and Application of an Alkaline-Surfactant-Polymer Recovery System to the West Kiehl Field," SPE Advanced Technology Series, Vol. 1, pages 172-179 (1993).
3. Nelson, R.C., "Chemically Enhanced Oil Recovery-State of the Art," Chem. Eng. Progress, March 1989.
4. Nelson, R.C., Lawson, J.B., Thigpen, D.R., and Stegemeir, G.L., "Cosurfactant-Enhanced Alkaline Flooding," SPE 12672.
5. Meyers, J., Pitts, M.J. and Wyatt, K.: "Alkaline-Surfactant-Polymer Flood of the West Kiehl Unit," SPE 24144, April 1992, presented at the 8th SPE/DOE Symposium on EOR, Tulsa, OK, April 1992.
6. Falls, A.H., Thigpen, D.R., Nelson, R.C., Claston, J.W., Lawson, J.B., Good, P.A., Ueber, R.C., and Shahin, G.T.: "Field Test of Cosurfactant-Enhanced Alkaline Flooding," SPE 24117.
7. Hawkins, B. and Nasr-El-Din, H.: "Mechanisms of Surfactant and Polymer Enhanced Alkaline Flooding: Application to David Lloydminster and Wainwright Sparky Fields," CIM/AOSTRA 91-28, presented at the Petroleum Society of CIM and AOSTRA Meeting 1992.
8. Lorenz, P.B.: "Combination Alkaline-Surfactant Flooding: Stat-of-the-Art Review," NIPER-349, October 1988.
9. Manji, K.H. and Stasiuk, B.W., "Design Considerations for Dome's David Alkali-Polymer Flood," Can. J. Pet. Tech., volume 27, pages 40-54, May-June 1988.
10. Chang, H.L., "Polymer Flooding Technology - Yesterday, Today, and Tomorrow," SPE 7043.
11. Pitts, M.J., "Prediction of Scale at the Production Well Using Corefloods: Comparison of Laboratory and Field Data for the Wilmington Field," Proceedings of the 3<sup>rd</sup> European Meeting on Improved Oil Recovery, volume 2, pages 379-390, 1985.
12. Gao, S., Li, H., and Yang, Z., Pitts, M.J., Surkalo, H. and Wyatt, K.: "Alkaline/Surfactant/Polymer Pilot Performance of the West Central Saertu, Daqing Oil Field," SPE Reservoir Engineering, August 1996, pages 181 to 188.
13. Wang, D., Zhang, Z., Cheng, J., Yang, J., Gao, S., and Li, L.: "Pilot Test of Alkaline-Surfactant-Polymer Flooding in Daqing Oil Field," SPE 36748, presented at the 1996 Annual Technical Conference and Exhibition held in Denver, Co, October 6-9,1996.
14. Wyatt, K., Pitts, M.J., and Surkalo, H., "ASP Flooding Produces Incremental Oil at Moderate Cost", World Oil, July 1997, pages 87 to 92.
15. Vargo, Jay, Turner, Jim, Vergnani, Bob, Pitts, Malcolm J., Wyatt, Kon, Surkalo, Harry, and Patterson, David: "Alkaline-Surfactant-Polymer Flooding of the Cambridge Minnelusa Field," SPE Reservoir Evaluation and Eng. Vol 3, No. 6, December,2000, pages 352-358
16. Vargo, Jay, Turner, Jim, Vergnani, Bob, Pitts, Malcolm J., Wyatt, Kon, Surkalo, Harry, and Patterson, David: "Using Alkaline-Surfactant-Polymer Floods as an Alternative to Waterfloods," Petroleum Technology Digest, a supplement to *World Oil*, September 1999, pages 7 through 9.
17. Hernandez, Clara, Chacon, L.J., Anselmi, L., Baldonado, A., Qi, J., Dowling, P.C., and Pitts, M.J.: "ASP System Design for an Offshore Application in the La Salina Field, Lake Maracaibo", SPE 69544, 2001.
